Cover: Jay Gross is pictured using a Red Baron net.

**P**urity Pool was founded in 1961 by Dick Gross, an experienced service technician. Unsatisfied with the products available at the time, and trying to always squeeze the most efficiency possible out of his time at every stop, he was constantly modifying his tools and inventing new ones. It wasn't long before he was marketing his inventions to others. Purity soon became solely a manufacturing company, devoted to providing only the most efficient and durable tools for the serious service professional. Purity's innovations include a turned leading edge, changing the design of leaf rakes forever by enabling them to work efficiently scooping (pushing) as well as raking (pulling). The introduction of the Enforcer handle years later made any Purity leaf rake frame many times stronger by distributing pressure across the frame.

**Purity Pool is a true family business.** Almost 50 years later, Dick still remains the principal designer, with his wife Julie as Operations Manager. The face seen by most at trade shows and working with customers is his son Rich Gross, while Rich's brother Jay works behind the scenes overseeing manufacturing and quality control. Their sister Kate helps out at times and lives in Oregon with her husband and two children.

# Purity Pool Scoops and Rakes

## The Enforcer Handle

The Enforcer handle features a Y-shape support which relieves stress at the handle and distributes pressure along the frame. A special slot in the back provides easy access for replacement of the spring lock. The Enforcer is on every Purity Pool scoop.

## Your Choice of Bag Materials

- 

 Standard: Traditional blue mesh, rounded shape
- 

 Tuff Duty: Extra durable black mesh, tapered design
- 

 Rag Bag: Easy-empty, soft black mesh with wear panel\*
- 

 Silt: Soft, superfine white mesh with wear panel\*
- 

 Leaf Chaser: Soft 1/4 in. open black mesh w/wear panel\*

\*Wear panels protect the softer bag materials from wear and abrasion

# Gator

Fast and Efficient for the Big Jobs  
 24" Wide Super Strong Frame  
 Three bag designs available (Leaf Chaser shown)

THE **Gator**  
 MAKES CLEANUPS A SNAP!

**TUFF DUTY**    **24" DEPTH**    **ORDER CODE: GTTD**  
 Our toughest material withstands the most abuse without the need for an extra backing. Low drag traditional size mesh.

**RAG BAG**    **24" DEPTH**    **ORDER CODE: GTRB**  
 Soft bag with traditional size mesh empties with an easy flip of the wrist. Secondary wear panel protects primary bag from abrasion.

**LEAF CHASER**    **24" DEPTH**    **ORDER CODE: GTLC**  
 Low drag. 1/4 inch mesh bag collects leaves and other large debris without clogging. Secondary wear panel protects primary bag from abrasion.

See page 10 for ReNew Kit and Leading Edge replacement parts

# FLY with the RED BARON

Our Flagship Product - Efficient and Durable  
20" Wide Super Strong Frame  
Three bag designs available (Tuff Duty shown)

**TUFF DUTY**    **20" DEPTH**    **ORDER CODE: RBDT**  
Our toughest material withstands the most abuse without the need for an extra backing. Low drag traditional size mesh.

**RAG BAG**    **20" DEPTH**    **ORDER CODE: RBRB**  
Soft bag with traditional size mesh empties with an easy flip of the wrist. Secondary wear panel protects primary bag from abrasion.

**LEAF CHASER**    **20" DEPTH**    **ORDER CODE: RBLC**  
Low drag, 1/4 inch mesh bag collects leaves and other large debris without clogging. Secondary wear panel protects primary bag from abrasion.

See page 10 for ReNew Kit and Leading Edge replacement parts

# Pro-Lite

Long-time Favorite of the Service Professional

18" Wide Super Strong Frame

Four bag designs available (Rag Bag shown)

**STANDARD 16" DEPTH**

**ORDER CODE: PLSTD**

Standard mesh bag with traditional rounded corners

**RAG BAG 20" DEPTH**

**ORDER CODE: PLRB**

Soft bag with traditional size mesh empties with an easy flip of the wrist. Secondary wear panel protects primary bag from abrasion.

**TUFF DUTY 20" DEPTH**

**ORDER CODE: PLTD**

Our toughest material withstands the most abuse without the need for an extra backing. Low drag traditional size mesh.

**SILT 20" DEPTH**

**ORDER CODE: PLSLT**

Super fine mesh bag gets fine particles (pollen, tiny bugs, etc.) Deep bag holds in debris. Secondary wear panel protects primary bag from abrasion.

See page 10 for ReNew Kit and Leading Edge replacement parts

# Ultra-Lite

Lightweight, Durable, and Economical

18" Strong Lightweight Frame

Four bag designs available (Standard shown)

**STANDARD 16" DEPTH**

**ORDER CODE: ULSTD**

Standard mesh bag with traditional rounded corners

**RAG BAG 20" DEPTH**

**ORDER CODE: ULRB**

Soft bag with traditional size mesh empties with an easy flip of the wrist. Secondary wear panel protects primary bag from abrasion.

**TUFF DUTY 20" DEPTH**

**ORDER CODE: ULTD**

Our toughest material withstands the most abuse without the need for an extra backing. Low drag traditional size mesh.

**SILT 20" DEPTH**

**ORDER CODE: ULSLT**

Super fine mesh bag gets fine particles (pollen, tiny bugs, etc.) Deep bag holds in debris. Secondary wear panel protects primary bag from abrasion.

See page 10 for ReNew Kit replacement parts

**BIG MOUTH GETS IT ALL!**

## Pelican Pro

### Ultimate Durability and Maneuverability

Bright color easily seen under water

All of the benefits of the Pelican shape  
but made for the professional.

16" Big Mouth Super Strong Frame

Five bag designs available (Tuff Duty & Skimmer shown)

#### TUFF DUTY

20" DEPTH

ORDER CODE: PPTD

Our toughest material withstands the most abuse without the need for an extra backing. Low drag traditional size mesh.

#### RAG BAG

20" DEPTH

ORDER CODE: PPRB

Soft bag with traditional size mesh empties with an easy flip of the wrist. Secondary wear panel protects primary bag from abrasion.

#### LEAF CHASER

20" DEPTH

ORDER CODE: PPLC

Low drag. 1/4 inch mesh bag collects leaves and other large debris without clogging. Secondary wear panel protects primary bag from abrasion.

#### SILT

20" DEPTH

ORDER CODE: PPSLT

Super fine mesh bag gets fine particles (pollen, tiny bugs, etc.) Deep bag holds in debris. Secondary wear panel protects primary bag from abrasion.

#### SKIMMER

3" DEPTH

ORDER CODE: PPSKM

The perfect replacement to unattractive, flimsy alternatives. Front and rear pocket design holds debris.

See page 10 for ReNew Kit and Leading Edge replacement parts

# Pelican Featherweight

Lightweight but Strong!

Professional quality for home use.

Super maneuverable and easy to use.

Superior visibility underwater.

16" Big Mouth Lightweight Frame

Four bag designs available (Standard\* and Skimmer shown)

**BIG MOUTH GETS IT ALL!**

\* Pelican Featherweight Standard bag is a special soft material (blue "Rag Bag" material but without the protective backing) for ease of use and quick emptying.

**STANDARD\***

**16" DEPTH**

**ORDER CODE: PCSTD**

Soft bag with traditional size mesh empties with an easy flip of the wrist.

**LEAF CHASER**

**16" DEPTH**

**ORDER CODE: PCLC**

Low drag. 1/4 inch mesh bag collects leaves and other large debris without clogging.

**SILT**

**16" DEPTH**

**ORDER CODE: PCSLT**

Super fine mesh bag gets fine particles (pollen, tiny bugs, etc.) Deep bag holds in debris.

**SKIMMER**

**3" DEPTH**

**ORDER CODE: PCSKM**

The perfect replacement to unattractive, flimsy alternatives. Front and rear pocket design holds debris.

See page 10 for ReNew Kit replacement parts

## Spa Scoop

Small, Light and Easily Maneuvered in Small Areas

14" Lightweight Frame

Two bag designs available (Silt shown)

**SILT**

**18" DEPTH**

**ORDER CODE: SSSLT**

Super fine mesh bag gets fine particles (pollen, tiny bugs, etc.) Deep bag holds in debris. Secondary wear panel protects primary bag from abrasion.

**STANDARD**

**18" DEPTH**

**ORDER CODE: SSSTD**

Standard mesh tapered bag

## Replacement Parts

### Renew Kit

Replacement Rim and Net

Return your scoops/rakes to like-new condition.

Available for all scoops and rakes

**ORDER CODES: RK + Product Code**

**Example: Renew Kit for Red Baron Rag Bag = RKRBRB**

### Leading Edge

Replacement Rim for the #1 Wear Point

Available for the Red Baron (shown), Gator and the Pro-Lite

**ORDER CODES: RED BARON: LERB**

**GATOR: LEGT**

**PRO-LITE: LEPL**

**PELICAN PRO: LEPP**

### Spring Lock

Top quality replacement fits most service tool handles

**ORDER CODE: SL**

## SuperRake 40

For the Biggest Jobs – Surface or Bottom

Replaces clumsy leaf vacuums – Easy to empty  
40" Wide, Two bag designs available (Tuff Duty shown).

### Tuff Duty

Standard mesh bag makes child's play out of cleaning up after windstorms.

40" W x 24" D

**Order Code: SR40TD**

### Leaf Chaser

1/4" Open mesh for easiest pulling action.

Get leaves and debris quickly and easily with low drag.

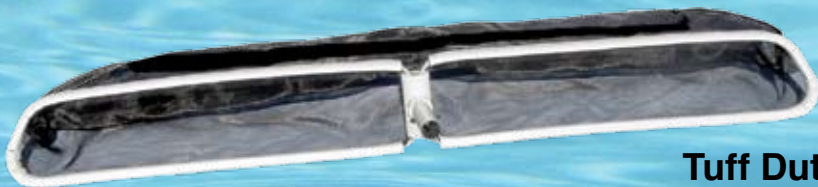

40" W x 24" D

**Order Code: SR40LC**

## SkimmerRake 48

Ideal for Large Amounts of Surface Debris

Easy pulling action. 48" Wide, Two bag designs available (Tuff Duty shown)

### Tuff Duty

Standard mesh bag speeds surface cleaning.

48" W x 10" D

**Order Code: SKR48TD**

### Silt

Superfine mesh net collects even the smallest debris.

48" W x 10" D

**Order Code: SKR48SLT**

See page 10 for ReNew Kit replacement parts

The application of acid is the most effective way to remove many pool stains, and the number one solution for heavily stained pools is acid washing. What has been missing is a way to deal with these stains without taking the pool out of commission for days at a time or drastically affecting water chemistry. Purity Pool offers two efficient ways to deliver just the right amount of acid directly to the stain, with minimal or no dilution, and little affect on the pool chemistry. Use the Out Spot for routine removal of isolated stains, or the Underwater Acid Wash for large areas (including entire pools!) or for tougher stains.

## Underwater Acid Wash

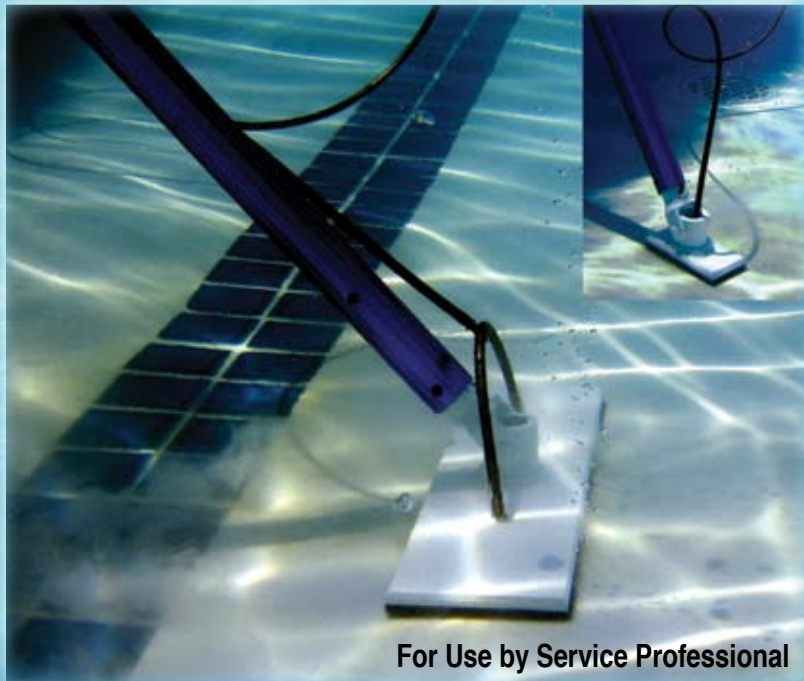

### Continuous Feed with Total Strength Control

One Use Pays for the Tool  
Includes 4" head and 14" head  
and a 25' quick siphon tube

**Order Code: UAW**

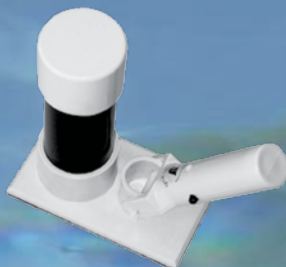

- 14" head for large areas, 4" head for tight spots and precise application on intense stains.
- As easy to use as a swimming pool vacuum.
- Removes white calcium build-up on black pools.
- Complete acid wash capability.
- Soaker pad makes complete contact with plaster for minimal effect to pool chemistry.

**For Use by Service Professional**

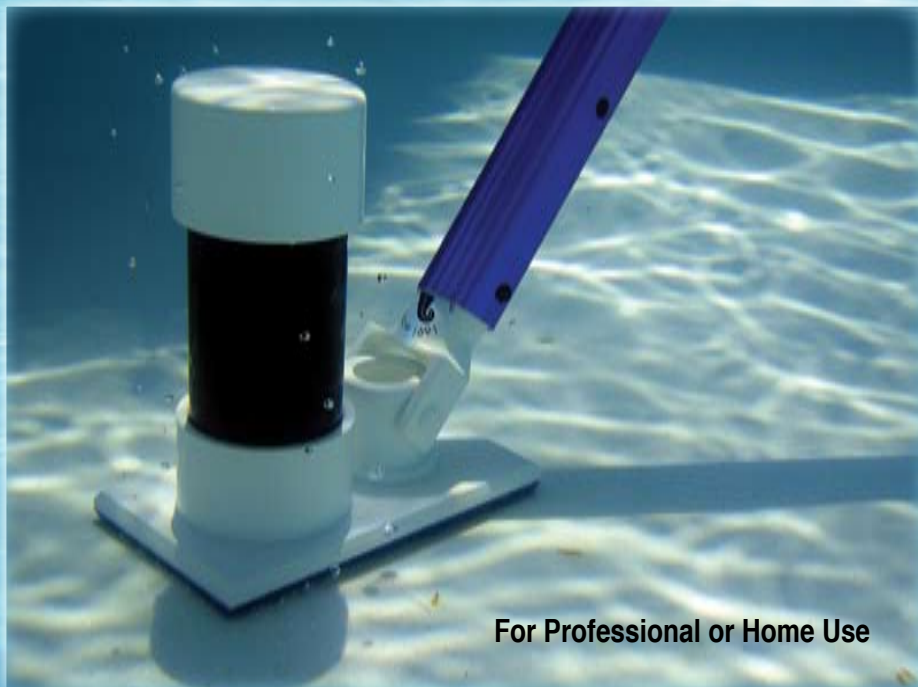

# Out Spot

## Self Contained Underwater Spot Remover

- Chemical action quickly removes fresh rust spots and stains in seconds
- Replaces harsh stones that gouge and produce unsightly scratches
- Protective of plaster
- Soaker pad isolates acid from water
- Holds 8 oz. acid for approximately 20 minutes effective use

**Order Code: OS**

**For Professional or Home Use**

## Tile Scrubber

Available with Quick Connect or 5' Pole

Double-thick soap-dispensing pad gets under cantilever decks and into tight corners.

Superfine, Fine and Coarse pads available.

### Tile Scrubber with 5' Pole

Super durable lightweight pole.

Comes with Fine grade pad.

**Order Code: TSW5**

### RePad Superfine

White superfine

grade pad.

3" x 4"

**Order Code: RPSF**

### RePad Fine

Blue fine grade pad.

Best for general use.

3" x 4"

**Order Code: RPF**

### RePad Coarse

Brown coarse grade pad.

More abrasive for use on tough scale. 3" x 4"

**Order Code: RPC**

### Tile Scrubber Quick Connect

Same as above, but with standard pole connection. Comes with Fine grade pad.

**Order Code: TSQC**

## Non Clog Ball

Leaf and debris strainer for skimmers without baskets. Fits over diverter valve or threads into skimmer fitting.

**Order Code: NCB**

## Wonder Weir

Double-blade Foam Replacement Weir  
Works well even with very low suction.  
A must with automatic suction cleaners  
and multi-speed pumps. Available in sizes  
8 3/8", 12", or custom (Easily trimmed)

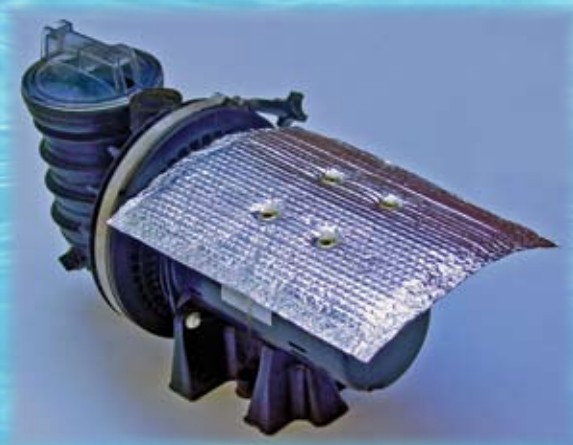

**Order Codes: 83/8WW  
12WW  
xWW**

## Motor Guard

Protect the Pump! Heat is the #1 Enemy of Motors.  
Modern reflective radiant barrier keeps pump motors protected from  
the elements. Extremely flexible material fits well in even the most  
crowded installations. Quick and easy spring hook release

**Order Code: MG**

**FLY**  
with the  
**RED BARON**
